

# You're invited!

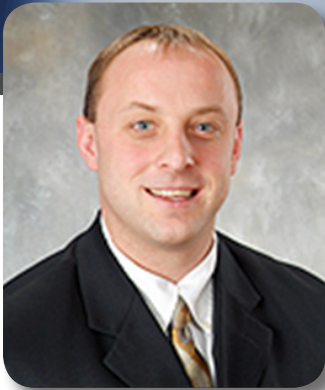

Cyber Security is a HOT topic...

How much do you know?  
Attend our **FREE** Cyber Security seminar, with guest speaker Jeremy Burris, to learn more!

Cybersecurity

**FRAUD  
PREVENTION**

Identity  
protection

## Guest Speaker: Jeremy S. Burris

*CISA, CISSP, MCP, L|PT, CPTS, C|EH, CICP, ECSA, Security+ Principal, Technology Services Group*  
Jeremy is a Principal in the Technology Services practice of SR Snodgrass's Financial Institution Services Group. With more than 15 years of professional experience, Jeremy has 4 years of information systems experience working for a community bank as a Bank Network and Technology Administrator and over 10 years of information systems audit and controls experience.

### At the seminar, you will learn:

- What is Cyber Security and why is it important
- How to protect your personal information
- How personal information is divulged to hackers through social media, email and other electronic devices
- What threatens our data and ways to protect personal data
- Tips on using wireless networks
- General security related information
- And so much more!
